Addressing Future

“
Reliance MET City
is proof that long-term vision
and present-day relevance
go hand in hand.”

An address has always meant more than a pin on a map. It signifies identity. Aspiration. Belonging. It tells the world where you stand, what you stand for and increasingly, where you are headed.

At Reliance MET City, 2025 has been a year of addressing the future in its most literal and meaningful sense.

This year reaffirmed MET City's magnetism for global enterprises like BEUMER Group and Boditech. Our industrial ecosystem now hosts 650+ companies from over 11 countries. In 2025 alone, several leading global and domestic organisations commenced operations across manufacturing and logistics, reinforcing MET City's position as a city designed for scale, precision and long-term relevance.

Simultaneously, MET City broadened its urban landscape with the launch of Metropolis by MET City, an expansive integrated township spanning 138+ acres just 0 km from Delhi at Daryapur in Jhajjar, Haryana. Urban Nest and Urban Square were initiated to bring together community life, social infrastructure and everyday convenience in one seamless environment.

HIVE|February 2026

Together, these neighbourhoods will expand an already vibrant base of 3,000+ residents, marking the continued shaping of a living, breathing, self-sustaining city.

The city's social backbone strengthened parallelly. The Reliance MET City Club and Convention Centre opened for pre-registration to an encouraging response, signalling demand for spaces that foster dialogue, culture and connection. Utilities and civic systems have been scaled with foresight. Commercial zones in and around MET City have seen rising activity with banks, ATMs, daily conveniences and food outlets reflecting a city fully in motion.

Beyond scale, 2025 has also been a year of responsibility and recognition. MET City and its leadership were acknowledged across respected platforms including NAREDCO, MICEA, TeamLease Foundation, PNGI and K.R. Mangalam University. We also achieved IGBC Gold certification for MET City-empowered villages, which is an important milestone underscoring our commitment to sustainable and community-led development. Our CSR initiatives in education, healthcare and environmental stewardship continue to reflect our belief that growth must be inclusive, measurable and enduring.

When I speak of addressing the future, I speak of building a city where infrastructure is not promised but operational; where opportunity is not theoretical but active; where community is not incidental but intentional.

The future is not something we await. It is something we are systematically designing, strengthening and inhabiting together. And as you turn these pages, I'm proud to invite you to witness the future in the making, at Reliance MET City.

S. V. Goyal
CEO & WTD, Reliance MET City (METL)

A Leadership Perspective on 2026

Reliance MET City has already addressed the future with a functioning integrated ecosystem. Rapidly growing industries, residential communities and infrastructure made a city that was no longer being planned, but actively lived in.

By the end of 2025, 115+ manufacturing units were operational, with over 250 additional manufacturing facilities under construction, signalling the strong confidence that global and Indian companies are placing in MET City. On the residential side too, the momentum was equally encouraging. More than 250 families already residing here and another 250+ homes coming up soon are adding a vibrant human dimension to our growth story.

And in 2026, we are writing the next chapter.

Our focus is shifting from establishment to experience, from readiness to global relevance. The city is evolving beyond a manufacturing-hub into a multidimensional global destination – one that supports industry, enables lifestyles and invites long-term engagement.

Residential developments such as Metropolis by MET City, alongside group housing and plotted communities, signal this transition. With 3,000+ residents already calling MET City home, the emphasis is now on enhancing how the city feels, functions and connects.

Beyond manufacturing, new industrial and allied sectors are beginning to integrate into the ecosystem, laying the groundwork for a broader economic mix. This growth will be supported by the right social, retail and urban infrastructure too.

To support this evolution, MET City is bringing in experiences that define modern city living, retail destinations, everyday conveniences, social and community spaces, and infrastructure designed to foster interaction, going beyond efficiency. These layers are critical to transforming an integrated city into a space of inspiration.

What lies ahead is clear. MET City is emerging as a global destination, deliberately and step by step. A city where economic strength powers lifestyle growth, where infrastructure enables human connection, and where ambition is matched by execution.

We gave an address to the future in 2025.
We are shaping it now.

Introducing NCR2.0

India's First Pre-Certified Platinum Rated Township Under LEED for Cities: Plan and Design

2026 started with the landmark launch of Metropolis by MET City, a transformative new address redefining the NCR landscape, located just 0 km from Delhi. With well-established connectivity, walk-to-work lifestyle and expanding civic infrastructure already in place, Metropolis by MET City represents the natural next step in our urban progression, as a complete urban ecosystem.

350+ channel partners came together for the grand launch of Metropolis by MET City, signalling strong market confidence from the outset. The unveiling of the landmark development featured a special live performance by Mame Khan, curated dance performances, and an evening of dinner and cocktails. More than a launch, it was a statement of momentum, reflecting the enthusiasm and partnership driving the next chapter of NCR's growth.

Metropolis by MET City Made National Headlines

THE ECONOMIC TIMES

Property / Construction

Reliance to expand real estate presence with 140-acre township in Jhajjar

New Delhi: Reliance MET City, a wholly owned subsidiary of Reliance Industries Limited, is stepping up its real estate state presence with plans to launch plotted development and group housing at its over 8,000 acre integrated mixed-use township in Jhajjar, Haryana.

Reliance had started acquiring land over a decade ago and has also sold over 2,000 acre, mostly to global and local industries.

The firm has already pumped in over Rs 10,000 crore and has plans to expand warehousing, co-living and commercial development in this township.

The company is now developing 140-acre comprising residential plots, industrial plots and a future group housing component. In the current phase, approximately 100 acres are being developed.

The residential component will have plots in sizes ranging from 112 sq. yards to 179 sq. yards and the project will also feature industrial plots, catering to businesses and enterprises.

Metropolis by Reliance MET City launches plotted homes at ₹99,000-1.10 lakh per sq yard in Delhi NCR

Metropolis is part of a 140-acre master-planned development in Daryapur, Jhajjar district of Haryana, which will feature a mix of residential and industrial plots.

Reliance MET City, a wholly owned subsidiary of Mukesh Ambani-led Reliance Industries (RI), has launched **Metropolis by MET City**, a large-scale integrated mixed-use development in Daryapur, Jhajjar district of Haryana, aimed at creating a new urban hub within Delhi NCR region.

Metropolis is a part of a 140-acre master-planned development that will include residential plots, industrial plots and a future group housing component. In the first phase, the company is launching around 100 acres, with the project being developed in two phases, Reliance MET City said in a release.

As per the release, Metropolis has been designed as a comprehensive ecosystem that brings together residential and industrial development within a single, well-planned township.

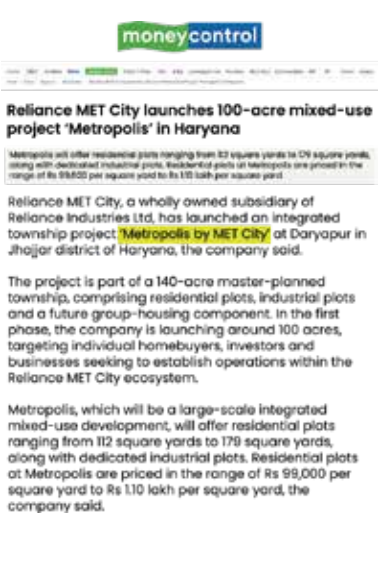

CNBC TV18

Reliance MET City's Metropolis bets on NCR's shift towards integrated, plotted developments

Around 100 acres, comprising residential plots, industrial plots and a planned group housing component, are being rolled out in the first phase. The launch comes at a time when plotted developments and low-density formats are gaining traction across NCR.

Reliance MET City has launched **Metropolis by MET City**, a 140-acre mixed-use project in Haryana's Jhajjar district, signalling a calibrated bet on the growing convergence of residential demand and industrial expansion on the fringes of Delhi NCR.

Around 100 acres, comprising residential plots, industrial plots and a planned group housing component, are being rolled out in the first phase. The launch comes at a time when plotted developments and low-density formats are gaining traction across NCR, particularly in locations aligned with expressways, logistics corridors and manufacturing hubs.

Reliance MET City launches 100-acre mixed-use project 'Metropolis' in Haryana

Metropolis will offer residential plots ranging from 112 square yards to 179 square yards, along with dedicated industrial plots. Residential plots at Metropolis are priced in the range of Rs 99,000 per square yard to Rs 1.10 lakh per square yard.

Reliance MET City, a wholly owned subsidiary of Reliance Industries Ltd, has launched an integrated township project **Metropolis by MET City** at Daryapur in Jhajjar district of Haryana, the company said.

The project is part of a 140-acre master-planned township, comprising residential plots, industrial plots and a future group-housing component. In the first phase, the company is launching around 100 acres, targeting individual homebuyers, investors and businesses seeking to establish operations within the Reliance MET City ecosystem.

Metropolis, which will be a large-scale integrated mixed-use development, will offer residential plots ranging from 112 square yards to 179 square yards, along with dedicated industrial plots. Residential plots at Metropolis are priced in the range of Rs 99,000 per square yard to Rs 1.10 lakh per square yard, the company said.

Hindustan Times

Reliance MET City launches 'Metropolis,' a mixed-use project in Haryana's Jhajjar

The first phase of Reliance MET City's 140-acre integrated development spans 100 acres and includes residential, industrial and group housing components.

Reliance MET City, a wholly owned subsidiary of Reliance Industries Limited, on Feb 7 announced the launch of 100 acres of **Metropolis by MET City**, a 140-acre integrated mixed-use development located at Daryapur, Jhajjar district, Haryana.

The project forms part of a 140-acre master-planned development comprising residential plots, industrial plots and a future group housing component. In the current phase, approximately 100 acres are being launched, the company said in a statement.

Metropolis has been envisioned as a comprehensive and multi-dimensional development that brings together residential and industrial opportunities within a single, well-planned ecosystem, it said.

The residential component is 42 acres out of which 19.19 Acres is plotted development.

Metropolis by Reliance MET City Launches as Integrated Hub in NCR..

Reliance MET City has announced the launch of **Metropolis by MET City**, a large-scale integrated mixed-use development at Daryapur in Jhajjar district, Haryana, aimed at creating a new urban hub within the Delhi NCR.

The project forms part of a 140-acre master-planned development comprising residential plots, industrial plots and a future group housing component. In the first phase, around 100 acres are being launched. The development is strategically located near the KMP Expressway, AIMS Badaa and the upcoming Haryana Orbital Rail Corridor, offering connectivity to Gurugram and other NCR centres.

Metropolis has been planned as an integrated ecosystem combining residential and industrial opportunities. The residential component offers plotted developments ranging from 112 sq yards to 179 sq yards, while dedicated industrial plots are aimed at businesses seeking to operate within the expanding MET City framework. The project is being developed in two phases and is ready to move, enabling immediate development by homebuyers and industrial investors.

A Global Destination

Signals of Confidence From Across the Globe in 2025

BEUMER Group's 10-acre large state-of-the-art facility is the latest to join companies from 11+ countries at MET City. BEUMER Group is a global leader in intralogistics, conveying, loading, palletising, packaging, sortation and distribution technologies. Choosing MET City as their preferred destination for expanding its manufacturing footprint in India signals promise for more international giants to invest here.

The entry of Boditech Med Inc. into Reliance MET City strengthens the city's footprint in advanced medical diagnostics manufacturing. A globally recognised South Korean leader in point-of-care testing, Boditech's presence reflects growing international confidence in MET City's infrastructure, scalability and readiness for technology-driven industries.

The vision for 2026

2026 will be a year of consolidation and acceleration.

With industry operational, communities taking shape, and infrastructure firmly in place, the focus shifts to deepening what has been built, strengthening economic activity, expanding residential life and scaling systems with care.

The year ahead will see MET City move further from momentum to maturity, guided by the same principle that shaped 2025: addressing tomorrow by responding responsibly to today.

A future-ready and smart Reliance MET City is no longer a vision.

It is being lived in and built forward.
