

the
Story
of us

The Reliance blueprint for building businesses is guided by the philosophy of care and empathy.

From connecting millions of Indians to the internet for the very first time...

To bringing affordable access to organised retail across towns and villages...

To helping small merchants modernise their businesses to thrive in the digital world... To bringing joy and laughter through meaningful entertainment...

To helping India secure its growing energy needs sustainably so that it can lead the new green economy...

To enriching lives with arts and culture, sports, and education and transforming the lives of millions across India...

Reliance always strives to create value that can make lives happier and better.

Like a thriving tree that nurtures a flourishing ecosystem around it, the growth of Reliance has nurtured thriving ecosystems of businesses and allied industries, all partaking in the shared growth and economic progress of our nation.

Because Reliance was founded as a corporate that cares.

Our dreams have to be bigger.
Our ambitions higher.
Our commitment deeper.
And our efforts greater.
This is my dream for Reliance
and for India.

Dhirubhai H. Ambani

Founder Chairman,
Reliance Industries Limited

From very humble beginnings over 45 years ago to now becoming the largest private sector company in India, the Growth of Reliance mirrors the relentless spirit of dynamism and hope that resides within the heart of each of my fellow Indians. It is this spirit that Reliance is committed to fostering and which is articulated in our timeless expression of intent, ‘Growth is Life’.”

Mukesh D. Ambani

Chairman & Managing Director
Reliance Industries Limited

Reliance Foundation, since 2010, has always stood shoulder to shoulder with the people of India, in every challenge - big or small, through good and bad times. We have tried to make a difference to the lives of millions of Indians across the country. In the remotest villages and towns of India, we have found and created stories of hope, of change, of transformation.

Nita M. Ambani

Founder & Chairperson
Reliance Foundation

RELIANCE INDUSTRIES LIMITED

IS A FORTUNE 500[®] COMPANY

AND THE LARGEST IN INDIA

The story of Reliance began with a man with a daring vision and whose legacy now energises the lives of hundreds of millions of Indians.

The pioneering spirit of **Founder-Chairman Dhirubhai Ambani** continues to inspire the heart and soul of the Reliance family – under the leadership of Chairman and Managing Director Mukesh D. Ambani.

Today, Reliance Industries Limited is a **US\$119.9 billion, Fortune Global 500[®] company**, and **India's largest enterprise**, with operations across energy and materials, retail, digital services, media and entertainment, and much more.

The one unifying thread that runs through everything at **Reliance is the spirit of Care and Empathy.**

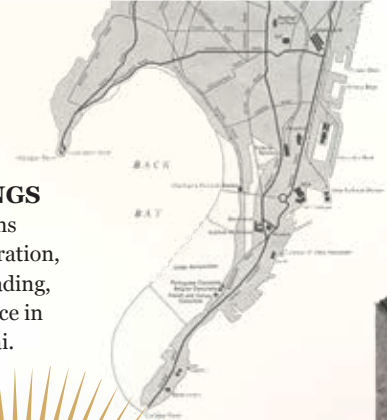

OUR JOURNEY OF GROWTH

Our motto 'Growth is Life' aptly captures the ever-evolving spirit of Reliance. In just over four decades, we have emerged as a Fortune 500® company and one of India's most valuable stakeholder-centric organisations. Guided by the principles of **Care and Empathy**, we are building valuable assets for India, creating ecosystems of inclusive growth, and innovating for a sustainable future for all humanity.

1957

MODEST BEGINNINGS
Dhirubhai Ambani begins Reliance Commercial Corporation, his first business in yarn trading, from a 500 square foot office in Masjid Bunder, Mumbai.

1966

ONLY VIMAL
The legendary apparel brand "Only Vimal" is born, bringing fashionable yet affordable clothing to millions of Indians.

1977/78

IPO – BIRTH OF EQUITY CULT
Reliance announces its IPO and ushers in the Equity Cult in India. The issue is oversubscribed seven times.

1982

PATALGANGA – YARN TO PETCHEM
Reliance sets up the first petrochemicals and polyester filament yarn plant in Patalganga in record time.

Gas Production (RIL's share) at
242 BCF*
(Million cubic feet)

**Production figures include KG-D6 and CBM*

As of March 31, 2024.

We Energise

The E&P business focuses on safe and reliable operations and project delivery while maximising production from its deepwater and Coal Bed Methane (CBM) fields. With commissioning of the MJ field, KG-D6 production has been ramped up to 30 MMSCMD, thereby contributing approximately 30% of India's gas production. This development will significantly reduce the dependence on costly imported gas and bridge the gap in India's energy requirements, especially in times of geopolitical uncertainty and constrained supply.

We Entertain

Reliance has taken big strides in scaling-up the media and entertainment vertical in the last year. From initiating the merger of TV18 and E18 (MoneyControl) with Network18, to onboarding a strategic investor in Viacom18, to announcing partnership with Disney, all these initiatives will not only help to capture the growth opportunities presented by India’s rapidly growing media landscape but also to shape its evolution.

Sustainability

Sustainability

We care about the collective future of humanity and our planet.

Sustainability and the environment

As one of the world's largest publicly listed companies, RIL is dedicated to ethical business operations and sustainable value creation for its stakeholders. By prioritising cutting-edge technology, robust research, rewarding employee experiences, community support, environmental responsibility and customer preferences, the Company successfully mitigates risks and seizes opportunities for a competitive edge. The goal of achieving Net Carbon Zero operations by 2035, supported by the decarbonisation strategy, shapes RIL's transformative journey. With growth, care and access as its core and sustainability as its guiding principle, RIL remains steadfast in its commitment towards nurturing people and the planet.

Dhirubhai Ambani Green Energy Giga Complex

We are setting up the Dhirubhai Ambani Green Energy Giga Complex across 5,000 acres in Jamnagar for an end-to-end integrated ecosystem for New Energy.

RIL has also successfully saved about 10 million GJ of energy due to energy conservation initiatives over 3 years.

Source: FY 2022, FY 2023 and FY 2024 energy savings add up to 9.92 million GJ.

Bioenergy Technology Centre

Since its inception in 2023, Reliance Bioenergy has rapidly emerged as India's largest bioenergy producer.

At the forefront of transforming waste into energy, we are pioneering a circular economy approach to achieving net carbon zero at Reliance.

We have set up the world's largest Bioenergy Technology Centre - a renewable energy powerhouse - to transform India's energy landscape.

Water and Effluent Management

Reliance implements a comprehensive strategy to reduce freshwater usage through increased water recyclability, reuse of treated water and minimizing external discharge. RIL has actively pursued desalination initiatives as a part of its broader sustainability goals, emphasizing efficient resource management. At our Jamnagar refinery complex, we operate large-scale desalination plants capable of processing seawater into usable water for our operations, reducing freshwater dependency.

For FY 2023-24, desalinated water accounted for around 46% of RIL's total water consumption.

Further, we have invested in automation to improve operational efficiency, resulting in reduced water consumption and continue to focus on expanding rainwater harvesting, enhancing water efficiency in manufacturing processes and using treated wastewater.

Circularity and sustainability

- Largest recyclers of PET bottles in India – recycling over 2 billion bottles annually and ramping up capacity to 5 billion.
- Launched India’s biggest sustainable fashion award, the “Circular Design Challenge”, in collaboration with UN Environment and Lakme Fashion Week, to raise awareness on and reduce textile waste generation, by promoting environmental champions.
- GreenGold fabrics by R|Elan™ are made from recycled plastic bottles using renewable energy, with one of the lowest carbon footprints globally.
- As part of our “waste-to-road” initiative, ReRoute™, we have built roads at some of our locations using end-of-life plastics to enhance road quality.

Polyolefin recycling

One of the initiatives taken by RIL is the development of EcoRepol™ and EcoRelene™. The products, branded as EcoRepol™ and EcoRelene™, provide sustainable packaging solutions for non-food and non-pharma applications. EcoRepol™ is a recycled polypropylene (PP) that can be used in various applications such as automotive parts, household appliances, and furniture. EcoRelene™ is a recycled polyethylene (PE) that can be used in various applications such as packaging, agriculture and textiles.

First in India to recycle plastic waste-based pyrolysis oil into International Sustainability & Carbon Certification (ISCC)-Plus certified circular polymers

Waste to Oil: CircuRepol™ and CircuRelene™

RIL has successfully developed patented continuous catalytic pyrolysis technology for circular polymers through chemical recycling. Reliance Jamnagar site has been certified for International Sustainability and Carbon Certification Plus (ISCC Plus) certification enabling it to produce circular polymers by processing waste plastic pyrolysis oil.

As a part of social initiatives, Reliance proudly stands as a founding member of the Alliance to End Plastics Waste (AEPW). Additionally, Reliance has been providing support to plastic waste clean-up activities at Versova beach in Mumbai through Bobcats with beach cleaning attachment.

Jio's decarbonisation efforts

Reliance Jio Infocomm Limited's (RJIL) decarbonisation effort has been recognised globally and within the telecommunications sector. RJIL is the only Indian telecom company with "A" score in CDP 2023 rating in the activity group of "Media, Telecommunications & Data Centre Services".

Across India, Reliance has planted over 2.44 crore saplings, contributing to the development of greenbelts spanning over 6,500 hectares.

Further, through Reliance Foundation, Reliance has taken several initiatives that exemplify our commitment to environmental stewardship like the plantation drive, adoption of the Miyawaki method for afforestation and mangrove restoration in Odisha and West Bengal.

Ecosystem and Biodiversity

Reliance is committed to contributing actively to preserve and have a net positive impact on biodiversity. A detailed impact assessment is conducted for projects wherein biodiversity is an aspect, and periodic monitoring is undertaken to assess the ecosystem quality. Reliance continues to work with all stakeholders and collaborate with partners to identify approaches to progress its environmental goals. The Company's efforts to develop greenbelts and restore habitats have been successful.

People

As a people-centric entity, RIL places a strong emphasis on nurturing the 'One Reliance' Family, with care and empathy serving as the cornerstones outlined in its 'Code of Conduct' and 'Values & Behaviours'. The Company's employee-oriented initiatives are guided by key principles, prioritising safe and reliable operations while fostering both professional and personal growth.

Children and teachers impacted through various education initiatives

Arts & Culture

Over the years, we have supported various arts and culture initiatives, including 'Tree & Serpent: Early Buddhist Art in India' at the Metropolitan Museum of Art, New York, USA; 'Nasreen Mohamedi' at the Met Breuer; 'Gates of the Lord: The Tradition of

Krishna Paintings' at the Art Institute of Chicago, USA; and in India, the 'SWADESH' art and crafts exhibition at NMACC and 'The Elephanta Festival'.

We have also supported 'Abbaji', the annual concert of master musician Ustad Zakir Hussain.

In 2024, Reliance Foundation opened India's first-ever country house at the Paris Olympics 2024.

Global Partnerships

- **Bill and Melinda Gates Foundation**
To empower one million women entrepreneurs across India to achieve an annual income of at least ₹1 lakh
- **Vital Voices**
